

Inspiration grows from and is rooted in the inspired Word of the Bible.

Dear Board Members,

The Los Altos Church is hosting a Saturday morning Biblical Nature Metaphor Program for Christian Scientists **on Saturday, February 11th from 1:00pm to 2:30pm** at the Christian Science Church in Los Altos. We've included a program flyer along with some suggested desk announcements for your approval. We would be grateful if you would approve the reader to announce this program between now and February 11, and place the flyer out on an accessible table or bulletin board so church attendees can see the information. The Los Altos church is partnering with nearby churches in supporting this event.

This program provides an opportunity to join with other Christian Scientists in exploring a prayerful approach to healing world and collective challenges. The program is entitled "Tree and Plant Metaphors in the Bible and Spiritual Sustainability". It includes beautiful PowerPoint nature slides which illustrate how these metaphors contribute to healing in various areas of life. The program is not politically oriented nor does it teach Christian Science but it explores how to see the universe and natural elements from a spiritual healing standpoint.

InspireSight programs have been given at various churches, including Los Altos and Carmichael in California, at The Willows, during Discovery Bound programs at Principia College, at CedarS and Adventure Unlimited camps. David and Cindy Martin, are the speakers and are Christian Scientists from the Yosemite Area, Bible Speakers, Naturalists, and Environmental Planners. Here are some quotes from Christian Scientists who have participated in Inspiresight programs:

"The spiritual focus was excellent"

"Inspirational! Excellent!"

"Very inspiring - new views"

"I loved [the Martin's] gentle ways of bringing the Bible and MBE's writings to us in relation to nature and things we see every day."

"[The program] was very well organized and thoughtfully presented"

". . . people would be very interested if they knew how excellent the program was. "

"This program gave me plenty of thought and new insight . . . I loved it – It gave me so much insight on Mrs. Eddy's infinite idea of the oneness of the universe."
